Assessing the Global Distribution and Abundance of Marine Organisms: A Program Initiation Activity

Monterey Bay Aquarium
Monterey, California

Participants List

Steering Committee

David Bradley, Chair, Applied Research Laboratory, Pennsylvania State University, marine acoustics
Alice Alldredge, University of California, Santa Barbara, marine ecology
Doug Butterworth, University of Cape Town, South Africa, fisheries science, statistics
Robert L. Smith, Oregon State University, physical oceanography
John Steele, Woods Hole Oceanographic Institution, oceanography and marine policy

Participants

Jesse Ausubel, Alfred P. Sloan Foundation
Peter R. Boyle, University of Aberdeen, Scotland, cephalopod population dynamics
Mel Briscoe, Office of Naval Research
Villy Christensen, ICLARM, Philippines, multi-species modeling
Zeke Grader, Pacific Coast Federation of Fishermen’s Associations
Fred Grassle, Rutgers University, benthic ecology
Ray Hilborn, University of Washington, fishery population dynamics and assessment
Eileen Hofmann, Old Dominion University, biological oceanography
D. Van Holliday, Tracor Corporation, marine acoustics
John Horne, GLERL, University of Michigan, physical oceanography and acoustics
Jules Jaffe, Scripps Institution of Oceanography, biological oceanography, acoustics and optics
Michael Jech, GLERL, University of Michigan, marine acoustics and fishery assessment
J. Anthony Koslow, CSIRO, Division of Fisheries, Australia, marine acoustics
Carolyn Levi, New England Aquarium, biological oceanography
Claudia E. Mills, Friday Harbor Lab, University of Washington, medusae/ctenophore ecology
Ole Arve Misund, Institute of Marine Research, Norway, *marine acoustics*
Don Olson, University of Miami, RSMAS, *physical oceanography*
Julia Parrish, University of Washington, *marine ecology*
Daniel Pauly, University of British Columbia, *fishery management and ecosystem modeling*
Marjorie Reaka-Kudla, University of Maryland, *coral reef ecology*
Bruce Robison, Monterey Bay Aquarium Research Institute, *pelagic fishes and gelatinous organisms*
John Shepherd, Director, Southampton Labs, UK, *stock assessment, ocean observation*
Michael Smith, Center for Marine Conservation
Andrew Solow, Woods Hole Oceanographic Institution, *statistics, marine policy*
Donna Turgeono, National Oceanic and Atmospheric Administration

**Ocean Studies Board Staff**

Morgan Gopnik, *Director*
Dan Walker, *Study Director*
Glenn Merrill, *Research Associate*
